Our Experience

4thD Christmas have been supplying, erecting, lighting and decorating both internal and external, live and artificial Christmas trees and lighting displays for Clients over the last 20 years.

From 4ft to 40ft, live or artificial, internal or external... we will supply, deliver, install, decorate and light your tree. Then, after Christmas, we'll remove it.

Based in Oxfordshire but covering most of the UK, we've been commissioned by Facilities Companies to service their Clients and by Town and District Councils, Shopping Centres, Cathedrals and Abbeys, Corporate Headquarters, Football Clubs, Universities, Offices, Racecourses, the BBC, Film Studios and private individuals among others.

With flexibility on delivery, installation and removal dates, we're happy to work with you to fulfil your criteria and requirements and to provide you with the professional Christmas tree service for which you've been searching.

Our Services

If you prefer the perfect “Christmas Tree” shape then choose an artificial tree. If you prefer something more natural and looser, then a live tree is for you. Both tree types can be decorated in one of our set colour schemes but bespoke designs are available - we can cover most options.

For our live internal trees we only use top quality non-drop Nordmann firs, which are installed in their own waterable stand. For live external trees we use Nordmann, Norway Spruce or Sitka Spruce. All live trees are sourced from specialist growers and have Forest Stewardship Council (FSC) certification. Our artificial trees are very lifelike and do not drop needles!

If you are looking for something else - internal or external lighting displays, bespoke one-night events, table decorations, window displays etc then we can help there too. Just call us and we can chat through your requirements.

Every employee has the relevant training and certification in the use of all equipment we use. Every employee goes through the 4thD Christmas tree training process to ensure adherence to internal procedures and H&S practices. Training includes ‘Working at Heights’ and ‘Ladder Safety’ certification. Risk Assessments & Method Statements - we have general RAMS for the bulk of installations and, where necessary, can provide Site Specific RAMS. Finally, we are fully insured.

So, there you have it... now all you have to do is choose a tree and colour scheme and, to complete the look, matching garlands and wreaths. Then just sit back and relax while we do the hard work for you.

Bespoke Services

We are often asked to create bespoke scenes or source bespoke items for our Clients.

2025 saw us creating a “photo opportunity” scene for Lloyds bank offices up and down the country - 9 in total. That’s in addition to the 30+ trees installed for them.

Trees and a garland arch with super deluxe decorations, a spectacular throne, presents, snow and, in the London office, a train set.

Our Decoration & Colour Schemes

We offer two levels of decoration and a set of colour schemes show below:

STANDARD - decorated with a mixture of matt, shiny and glitter baubles plus a selection of special baubles and warm/bright lights depending on colour scheme.

LUXURY (shown below) - includes our standard mixture plus special decorations including snowflakes, bows, flowers, stars etc. and warm/bright lights depending on colour scheme.
